

Bi-directional ESD Protection Array Diode 20V Clamping Voltage For Advanced Electronics

Our Product Introduction

for more products please visit us on socaydiode.com

Basic Information

- Place of Origin: GUANGDONG, China
- Brand Name: SOCAY
- Certification: RoHS
- Model Number: SE05N6S01HK
- Minimum Order Quantity: 10,000 PCS
- Price: Negotiable
- Packaging Details: DFN1006
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Product Specification

- Clamping Voltage: 10V
- Package: DFN1006
- Junction Capacitance: 15 PF
- Rohs Compliant: Yes
- Quantity Per Reel: 10,000pcs
- Operating Voltage: 5.0V
- Material: ESD (Electrostatic Discharge) Material
- Color: Black
- Highlight: **Bi-directional ESD Protection Array diode, Electronics ESD Protection Array diode**

Product Description

Product Description:

The ESD Array product comes in a compact DFN1006 package, making it easy to integrate into your existing systems. The small size of this package also makes it ideal for use in space-constrained applications. With a clamping voltage of 20V, this product is capable of providing effective protection against ESD events.

Our ESD Array product is made of high-quality ESD material, ensuring that it is both durable and reliable. This material is specially designed to dissipate electrostatic charges and protect sensitive electronic components from damage.

ESD is a serious problem that can cause significant damage to electronic devices. Without proper protection, ESD events can cause irreversible damage to sensitive components, leading to costly repairs and downtime. Our ESD Suppressor is designed to prevent these events from occurring, providing peace of mind and protection for your valuable electronics.

In addition to its superior protection capabilities, the ESD Array product is also easy to install and integrate into your existing systems. Whether you are looking to protect your circuit board, microprocessor, or other sensitive electronic components, our ESD Protection Diodes are the perfect solution.

Invest in the best protection for your electronics with our ESD Array product. Contact us today to learn more about this innovative and reliable solution for ESD protection.

Features:

Product Name: ESD Array

Quantity Per Reel: 10,000pcs

Operating Voltage: 5.0V

Clamping Voltage: 20V

Color: Black

Junction Capacitance: 15 PF

Transient Voltage Suppressors for ESD Protection

TVS Array

ESD Protection Diodes

Applications:

Smart Phone and Tablet PC

TV and Set Top Box

Wearable Devices

PDA

Support and Services:

The ESD Array product comes with comprehensive technical support and services to ensure optimal performance and customer satisfaction. Our team of experienced engineers and technicians are available to provide the following support services:

Product installation and configuration assistance

Diagnosis and troubleshooting of technical issues

Regular maintenance and updates

Warranty support and repair services

Training and education to ensure proper usage and maintenance

In addition to our standard support services, we also offer customized solutions to meet specific customer needs. Contact us to learn more about our product technical support and services.

Packing and Shipping:

Product Packaging:

The ESD Array product will be packaged in a sturdy cardboard box with proper cushioning to ensure safe delivery. The product will be sealed in an anti-static bag to prevent any damage during transportation. The package will also include a user manual and a warranty card.

Shipping:

The ESD Array product will be shipped via a reliable courier service. The shipping charges will be calculated based on the destination and weight of the package. Once the package is shipped, the customer will receive a tracking number to track the status of their shipment. Delivery times may vary depending on the destination and shipping method selected.
